

## Bardaudio system specification.

### Bardone

Comes in the form of a transmitter and receiver, the Bardone plugs into your sound source be it your CD player, computer radio tuner or mp3 player and transmits sound in high quality uncompressed digital audio to any number of amplifiers or stereo systems within range and plugged into a Bardone receiver.

#### -Specifications-

- Digital wireless transmission for high end sound quality.
- Up to 8 zones of stereo CD quality sound.
- Suitable for multi room installations.
- Discrete cream coloured paintable housing.
- Transmit Range 20-40 metres (L.O.S.)\*
- Multiple receivers.
- Phono RCA connectors for input and output.
- Operating Frequency of ISM band 2.4-2.4835GHz.
- Avoids reception errors by employing forward error correction.
- Omni directional Embedded antenna.
- 9 to 12V DC power operated.
- Supplied with mult-head universal power supply (100-250V a.c.).

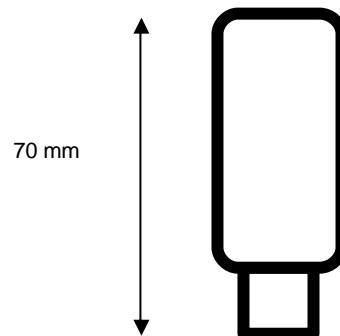

### BardUSB

The same size and shape as a USB computer memory stick the BardUSB could easily be mistaken for one. The difference is this one has a Bardone transmitter inside.

Simply plug it into the USB port on your PC or MAC and play music from your computer and transmit it to any Bard receiving system within range.

#### -Specifications-

- Digital wireless transmission for high end sound quality.
- Up to 8 zones of stereo CD quality sound.
- Suitable for multi room installations.
- Transmit Range 20-40 metres (L.O.S.)\*
- Multiple receivers.
- USB input for power and signal.
- Operating Frequency of ISM band 2.4-2.4835GHz.
- Avoids reception errors by employing forward error correction.
- Omni directional Embedded antenna.

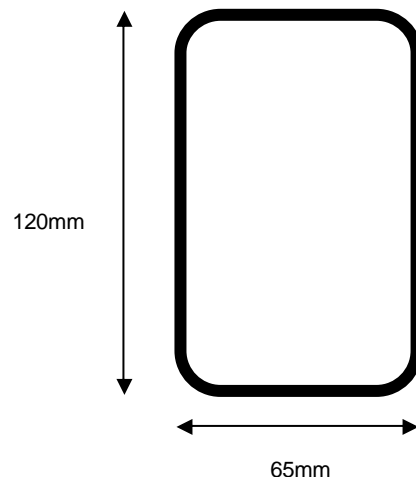

### Bardthree.

Not much bigger than a power supply adapter that plugs directly, power cable free into the wall power socket, the Bardthree is a digital hi-fi amplifier, universal power supply and Bard digital receiver all in one. Simply plug in your loudspeakers into the unit select one of eight channels and receive high quality uncompressed audio from your CD player, radio tuner, computer or mp3 player that's plugged in to your Bardone or BardUSB transmitter.
