

Garden Speaker

Focal Audio's piece de resistance is its outdoor that defies ones imagination and if it doesn't do that, it certainly defies nature!

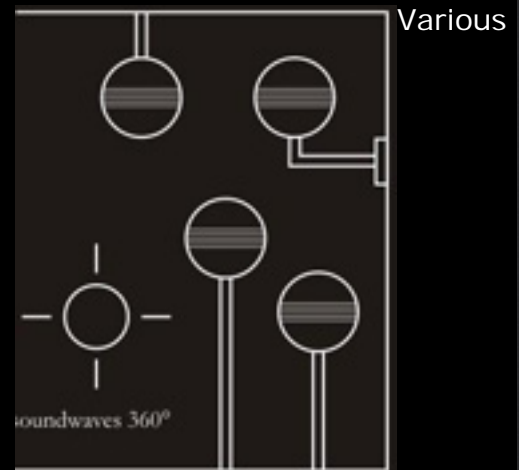

Omnispeak uses the most advanced loudspeaker development software to create a speaker that delivers omni-directional & intelligible sound over large spaces.

The uniqueness of Omnispeak lies in the quality of materials used in its construction. The seven-piece Lexan Polycarbonate shell. Weatherproof Polypropolene Drivers and Stainless Steel fittings create a speaker that is entirely unbreakable, UV proof & weatherproof. To give you a speaker buit to survive any harsh and challenging environments. Omnisound delivers a uniform quality and quantity of sound to the space it is assigned, making it omni-directional.

The Omnispeak can be connected to any indoor or professional music system. Models are produced in array of vibrant colours to blend into the desired setting. Certain models also have the capacity to serve as lights. It is an ideal speker for gardens,terraces,resorts,jogging tracks,factory floors & shopping malls.

Specifications

Frequency Response:	65 Hz 18Khz
Sensitivity :	89 db/w/m
Power Handling :	50 watts R.M.S.
Conerage Pattern	360 ⁰ omni-directional
Impedance	8 OHMS nominal
Drivers	Glass filled polycarbonate basket, 6.5" polypropolene woofer, Polycome 1" tweeter
Weather Handling :	-38 ⁰ C to 60 ⁰ C
Operating Relative Humidity :	99%

Mounting Options

- Standard - 2 Piece rod with a ground spike.
- Hard ground circular stand

- AR mounted cable handling mount
- L Shape wallmount

Body Materials : Lexan polycarbonate

Colours : Black , Dark Green , Yellow, Red

Optional: 100 Volt LMT
